Google Cybersecurity Professional Certificate

CompTIA Security+ (Expected Jan 2025)

PROJECTS

Project: SIEM Home Lab Setup, DHCP Server Configuration

Source: gregory-hilbert.github.io/Projects.html

Platforms and Technology Used: Kali Linux Virtual Machine, Elastic (SIEM), Cisco Packet Tracer, Cisco CLI

EXPERIENCE

Company: Walmart

Jan 2024 - Aug 2024

Title: Asset Protection

- Deterred theft by monitoring customer transactions using a combination of physical observation and company provided technology. Collaborated with other Asset Protection associates to identify and monitor individuals attempting to cause financial loss, successfully preventing theft and, in some cases, leading to their apprehension.
- Responsible for theft and shrink prevention, in addition to safety compliance.
- Top performing associate at shrink deterrence/theft prevention in fiscal year 2025, averaging 5 deterrences per day (Store #0507)

Company: Walmart

April 2011 - Present

Title: Lead Pharmacy Tech/CPhT

- Created comprehensive training plans to efficiently develop new and experienced technicians
- Responsible for administering immunizations and filling prescriptions in an efficient, safe manner
- Achieved the highest ranking in the market for meeting vaccine quotas through patient education initiatives and use of immunization registry database

Company: Walmart

Jan 2019 - April 2020

Title: Assistant Manager/Fresh Lead

- Reduced fresh waste by \$131,000 in fiscal year 2020, while driving double digit sales increases. Accomplished this by observing associates while they worked and demonstrating any needed corrections. Regularly viewed and investigated waste reports, and provided corrective action for any issues.

EDUCATION

High School Diploma

Anderson County High School, 2009

Cybersecurity for Critical Urban Infrastructure

MITx, 2024

SKILLS AND TECHNOLOGIES

Security Operations, Customer Service, Analysis, Network Security, Excellent Written and Verbal Communication
